VOL. 32, NO. 36 | CAMPBELL, SANTA CLARA COUNTY, CALIFORNIA | FRIDAY, MAY 17, 1929

Pertinent Paragraphs

James Richardson, high school lad of Santa Rosa, was convicted on a hit-run charge. His victim, 70-year-old Walter Hall, died. In considering a plea for leniency made by the brother of the dead man, the judge revoked the youth's operator's license forever. Some people may feel that Richardson got off too easy, and that may be true—but no one can criticise the action of the judge in revoking the young driver's license for all time. It is our opinion that more automobile operators' licenses should be revoked, and that it should be made more difficult to secure a license in the first place.

Girls were sent home from the Santa Clara high school juniors' annual dance to don stockings. Officials of the school said that it was not prudery on their part that borught forth the request that the limbs of girl students be clad before their owners appeared on the dance floor. Rather it was because the affair called for "dress up"—and the boys were not permitted to wear their dirty corduroys. The comparison is plain and, to our mind, well taken. Bare legs, in most cases, resemble nothin gso much as white "cords" no longer white.

The city of Willow Glen, by virtue of its incorporation, can and will bar from its limits all billboards with two exceptions—"for sale" signs on vacant lots and the signs of merchants when painted on their own buildings. The new ordinance will not only serve to beautify the city, but to satisfy the various organizations of women who deplore cigarette ads featuring women smokers. Campbell, incorporated, could enforce a like ordinance.

That's all.

GRANGE NOTES

E. C. Horst, a farmer of San Francisco, spoke before the Grange Tuesday evening on the farm relief proposals that are now before congress. Mr. Horst is a forceful speaker. He does not thin kany of the bills now before congress will be of benefit to the farmer. He said that six hundred millions in agricultural products are imported annually, and that the thing to do is to enact a tariff high out all or nearly all of this foreign competition and allow home grown products to fill home markets.

An opportunity was given for questions, and many were asked, bringing out the fact that some members of the Grange had confidence that the Grange debenture bill would afford considerable relief to general farming interests. The Grange was well pleased with the address, as it is well to hear all sides of suc himportant questions.

The matter of Campbell participating in the Fiesta de las Rosas was discussed but did not enlist much enthusiasm. Mr. Keesling announced there would be a rose show Saturday.

H. G. Keesling spoke against the dumping of garbage along the highways and other conspicuous places and hoped a public sentiment might be created against the practice.

Pomona Grange was held at the old grammar school auditorium last Saturday afternoon and evening. The afternoon session was devoted mostly to business matters. A picnic dinner was served in the open space south of the ahll and a general social time was enjoyed.

In the evening the Pomona drill team consisting of 40 lady members all dressed in white put on the fifth degree work for a class of eight new members. The team does beautiful work and was much enjoyed by all present.

Mr. and Mrs. Ralph Hyde have as theirguests this week Mr. and Mrs. Leon S. Miller, who returned Sunday evening from a trip of several hundred miles in California and Nevada. At a reunion supper to celebrate the return of the Millers there were present the H. M. Shadle and G. I. Husted families.

Mr. and Mrs. R. M. Smith, Mr. and Mrs. C. E. Hancock of San Francisco, Arthur Sellick and daughter, Mary, and S. H. Andrews of San Jose and Mrs. Elizabeth Mortley of this city were Sunday visitors at the home of Mr. and Mrs. C. F. Rubell.

COUNTRY WOMAN'S CLUB NOTES

All members of the club are urged to attend the next meeting to be held in the community hall Monday afternoon, May 20. The program will begin at 3 o'clock and the chairman asks that each member be prepared to respond to roll call with the title of a book which she has read recently, together with the name of the author.

Mrs. Paul Fennimore Clarke of Willow Glen will be the speaker and she will tell of some of her experiences of her travels in Norway. Mrs. Clarke is a very interesting speaker and it is hoped that a large number will be out to hear her Monday.

Anyone and everyone in the community is invited.

MASONS CELEBRATE MONDAY NIGHT

Charity lodge No. 362, F. and A. M. celebrated its 25th anniversary Monday evening at I. O. O. F. hall. The third degree was conferred by past masters of the lodge and an interesting anniversary program was staged.

At the close of other business refreshments were in order. Members were surprised when in place of the customary "coffee and" they encountered a repast approaching the proportions of a banquet. The feed was planned, prepared and served by Percy Dunlap—with the able assistance of Harry White, who came in strong on the plan and prepare part of the combination.

A history of the lodge reveals that of the 15 charter members who formed the chapter Oct. 13, 1904, four still retain membership in this lodge. They are A. B. Townsend, Charles Townsend, J. C. Ainsley and J. J. Cornell. The late Frances M. Righter was the first worshipful master.

Insurance AGAINST Trouble

THE DUAL-Balloon's positive assurance of safe, sure mileage year in and year out means far greater protection than the policies that pay off only after trouble has come. Why depend upon mileage guarantees that mean running much of the way on "bald-headed" tires?

The DUAL-Balloon's thicker, tougher, longer-lasting tread, its non-skid permanence, its prevention of punctures are features which mean the greatest possible margin of safetv.

Grandma is cooking with electricity

"JUST keeping up with the times," says Grandma Collins, "I am one of the many new users of the electric range. I was just over at the P G and E's office and they told me one-thousand five-hundred of their customers will get electric ranges this May and June."

The electric range gives a beautiful, clean kitchen and perfect baking to women who love modern methods.

The electric range has white ano gray porcelain enamel that makes kitchens attractive. It bakes perfectly. And it does it automatically. The oven heats up to 400 degrees in 9 to 11 minutes—as fast as one can mix biscuits. The open or closed cooking elements are now made smaller to fit your pans. Heat that was formerly wasted goes to work. Food cooks faster, less electricity is used.

While you're downtown, stop in at a dealer's or at our office and see these new electric ranges. Or telephone us and our representative will gladly show you pictures of the many beautiful new models.

Electric water heating is now economical

The cut in rates of a year ago, means that an electric water heater, when used with an electric range, heats water for only one-third to one-half of a cent per gallon. So little to pay for hot water. And a CLEAN, COOL, all-electric kitchen.

No wonder that women using electricity for cooking are turning to electricity for heating water.

Planning high-speed business

More than 95% of the telephone calls from one town to another in the Bell System are on a high-speed basis. The operator in many cases now asks you to hold the telephone while the call is put through.

Out of town calls used to be handled by one operator taking your order and giving it to another group of operators to put through. You now give your call direct to the operators who put it through—and put it through fast while you are on the line.

A high-speed service to all parts of the country—calls from one town to another as swift, clear and easy as local calls—that is the aim of the Bell System.

Boy Scouts and Campfire Girls Building Fund

SPONSORED BY CAMPBELL KIWANIS CLUB

We are publishing below a list of those who have subscribed to pledges or have made cash donations toward the Boy Scouts and Camp Fire Girls building sponsored by the Campbell Kiwanis Club.

The original amount of $2,500 has been reached, but the committee wants to raise $3,000 if possible, as there are added expenses not originally figured in the cost of construction. The lumber is on the ground and work has been started in earnest under the supervision of Oluf Strom and George Burrow.

The building committee is under considerable expense at this time and we ask that you make your payments on pledges as soon as they are due. The March, April and May coupons on pledges are due at this time and should be paid at the bank.

The names of those who have donated labor or material are not published at this time, but will be published at a later date. If your name is not on the list the committee would be very glad to receive your donation or pledge and include your name in the list to be made public at a subsequent date.

The finance committee wants to thank all those who have helped with this work, especially the captains of the various districts. We also want to thank those who have subscribed or made cash donations. Your help has been given to a worthy cause—that of making a meeting place for our boys and girls.

Yours very truly,
FINANCE COMMITTEE,
Ralph H. Hyde, Chairman
